A Bursted Bleacher.

A Bleached Bleacher.
Cory, N. Y., May 27.—The bleacher in Nelson's strawboard mill at Waterford exploded last night and tore the building to pieces, killing James Reddish, Edward Kelly, M. Asbey, M. Greed and John Heaverman. Four others were slightly injured. Loss \$16,000.

Mysteriously Murdered.

St. Louis, May 27.—A dispatch from Metropolis, Ill., says: John Trumbo was mysteriously murdered late last Saturday night while on a fishing excursion near a little town named Joppa, on the Ohio river, and that Allen Chont, a step son-in-law, Frank McGill, a hired man; and John Martin have been arrested for the act.

An Abundance of Food

NEW YORK, May 27.—Reports from a thousand correspondents to the *National Press* and *Bottler's Advocate* from all parts of the United States in regard to the fruit crop say that the apple crop will be the largest ever known. There will be only half a crop of peaches, in pears the prospects are for a very large crop, and in small fruits very good.

Tiller Pleads Guilty.
St. Louis, May 27.—When the case of Prentice Tiller, the express robber,

was called in the criminal court this morning, his attorneys pronounced themselves as being ready to proceed. The indictment was then read to the prisoner.

and he was asked to plead. To the astonishment of the court Tiller answered without a moment's hesitation, "guilty, your honor." There was

a sensation succeeding this, but presently Judge Van Wagner turned in his chair and ordered the prisoner to rise and sentenced him to five years imprisonment.

WASHINGTON May 24 Senator

Cameron, of Pennsylvania, appeared in the senate this morning and the senators congratulated him on his safe return and

improved health. Several petitions were presented opposing the government assumption of telegraphic functions. Slater of the committee on

public lands, reported favorably the bill to forfeit the grant along the uncompleted portion of the northern Pacific railroad. The report on the Danville in-

vestigation was submitted. Vance is preparing a minority report. Ingalls introduced a bill to preclude the sale of lands belonging to the prairie band of Pottawatomie Indians.

LIVES OF PAIN

RHEUMATISM and NEURALGIA have long enough run riot in the human system.

They have tormented the human family and defied the medical faculty. From time of memory they have been known to afflict the human race, and the name of rheumatism and neuralgia is a household word.

"ATHELOPHOROS" is the enemy of rheumatism and neuralgia. It repairs the damage, restores the blood, moves the joints, calms the nerves, soothes the muscles, gives rest and peace to the troubled mind, and causes delightful sleep.

"ATHELOPHOROS" is a new remedy, but it has been abundantly tested. From far and near comes the praise of the medicine, and the name of the medicine is a household word. This is all, and that is enough.

"ATHELOPHOROS" can do for you what it has done for thousands of others. It can drive out your Rheumatism and Neuralgia, and will do so if you give it a fair trial.

"ATHELOPHOROS" has by this time had such a good trial all over the country that its true worth is proven, and its true character proved.

"ATHELOPHOROS" means "Pain-Beater," "Victory," "Conqueror." It carries off the pain, restores the blood, moves the joints, calms the nerves, soothes the muscles, gives rest and peace to the troubled mind, and causes delightful sleep.

If you cannot get ATHELOPHOROS of your druggist, we will send it to you, on receipt of regular price—one dollar per bottle. We prefer that you try it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed.

OFFICIAL PAPER COUNTY AND CITY.

The Wall street walls are still out in the cold.

Next Tuesday the panic in booms will commence.

The Nationals hold their state convention at Indianapolis to-morrow.

SENATOR VOORHEES will deliver the Fourth of July oration at Richmond.

The Wabash Plain-Dealer has commenced the publication of a campaign daily.

No enterprising newspaper man had told the people that General Grant had commenced smoking a pipe in order to economize.

The state veterinary surgeon of Kansas, after a protracted tour, reports glanders prevailing among horses in fifteen counties.

CARL SCHURZ says that if Mr. Blaine is nominated he will stamp the state of Ohio against him. At \$250 a stump? Chicago Times.

The democratic members of congress are trying to negotiate with the republicans for the adjournment of congress the latter part of June.

The republican national convention draws near and still Mr. Arthur has not yet finished the counting of the eighty who are said to be doubtful.

SENATOR EDMUNDS is mentioned as the "owner of the largest tombstone factory in Vermont." The senator should plant one, inscribed "To My Lost Boom."

PROF. JAMES D. MAY, aged seventy-nine years, has just completed a term of school at Salem. For sixty years this professor has been teaching the "youth how to shoot."

A FALSE prophet has appeared in Georgia and is creating great consternation among the people by the preaching of his new doctrine to the negroes. He and El Mahdi should form a partnership.

The republican congressmen are not near so anxious to investigate the Hon. W. H. English on the charge of lobbying since the resolution was made to include others. It's not near so funny as it was.

Just where this pool business will end it is hard to determine. It is now stated that the melon growers of Georgia have formed a protective pool. When it comes to pooling the melon business there's likely to be trouble.

THE Gazette seems to be worried somewhat as to what Benny Butler is going to do in the coming political canvass. Ben Butler is, as the Gazette says, "a queer customer" and that is just what worries the boys.

A young farmer who resides near Orion, Iowa, killed thirty-three large snakes in less than three hours recently, while engaged in plowing sod. This is a very large snake story to come from a state supposed to favor prohibition.

It might be well to defer the investigation of William Pitt Kellogg until after the republican convention. It would give him prominence in that little meeting to have an investigation on his hands. Investigations are becoming very fashionable.

WILLIE MR. HARRISON, of our own state, has not been fortunate in securing the positions which he most desired, he seems to have a happy faculty of providing for his relatives. It is now thought that his brother, Judge Horace H. Harrison, of Tennessee, will be appointed solicitor of the treasury.

The Evening Mail of Chicago says that "for the convenience of the thousands who will attend the national republican convention the Sunday Tribune published the locations and 'limits' of the principal gambling halls in Chicago. Six columns were devoted to this very interesting topic. The counting room tells on the matter are said to have been \$1,500, the rate being \$1 per line. Copies of the paper were mailed to all the delegates."

The action of the chief of police of Toledo in stopping the sparring match of John L. Sullivan is certainly commendable. Sullivan travels on his strength and disgraces, if possible, even that profession in his endeavors to paint various cities in bright colors. Sullivan should be sent back to private life.

At the council meeting to-night the water work's question will no doubt come up for action. It is high time that this matter should be settled and the council should take the necessary steps at once for the speedy solution of this question. The question has been argued in detail and everything has been said on either side. The advantages and disadvantages of different plans have been placed before the people and now the tax payers are anxious to have the matter settled and settled too for the best interests of the city.

It now seems probable that General Grant will not draw any more money from the country's treasury for a little while. Numerous protests, it is said, have been sent to the house against the passage of his bill and the matter will likely go over for another term. The people begin to think that it may be necessary to appoint a guardian or some friend, like Percy Ward, might induce him to put it in a bucket shop. The high ideas of his son that he ought to have a solid million in cash may bring the country to its senses, however.

The Philadelphia Times refers to Ferdinand Ward as "the master confidence man of New York." This being true, the Grant family should be put on record as the most trusting people in the world. So long as they could draw their money as fast and in as great quantities as they wished, they never suspected that Ward was a rascal. But when a pay day came and no money in the bank Ward was immediately the biggest scoundrel in America. How sudden revelations sometimes come!

America is a progressive nation, but we bow the knee to Berlin at the present time. They have there commenced a crusade against piano playing and an effort is to be made to have the authorities pass an ordinance limiting the time when it shall be lawful to thump these instruments. Now if the Berlin girls would learn popular airs such as "See that My Grave's Kept Green," "Over the Garden Wall" and "I'm Just Going Down to the Gate" there would be no more trouble. The police would hang over the front gate themselves and drink in the beautiful strains, and everybody in town would buy a piano. The attention of the belles of Berlin is respectfully called to this matter.

A NUMBER of republican sheets have been having a great deal to say in regard to the unseating of Mr. Peelle. This is particularly true with the papers in the Indianapolis district and in reply the Sentinel, of that city, says: "No less than six democrats were unseated by the last republican congress, and the seats were given to republicans. One of these unseated democrats was really elected by 8,000 majority, and they all had better claims to their seats than Mr. Peelle had to his seat in this congress, and yet Mr. Peelle voted to turn every one of these democrats out, and the republican papers here and everywhere approved this wholesale unseating of democratic members. In view of these undisputed and indisputable facts, the outcry of these republican sheets about Peelle's removal is merely blind, bigoted partisan rant, and excites the contempt of all right thinking people."

An exchange puts it in the following very forcible manner. Further comment would be useless: "The workmen all over the country are beginning to get the true bearings of the tariff controversy. They smell in the air, as does an affrighted deer, the danger that pursues them, but which has never until now come so near the range of vision. The 'next year' revenue reformers, who are trying to ally their fears and their anger by filling the air with rosewater promises which they never mean to keep, are losing their breath. Tariff reform has petrified into the mills and the mines. Every blacksmith hammers a little of it into the hard face of his anvil, every farmer harrows it into the field with the grain he spreads broadcast, and every poor seamstress sews it into the shirt she makes out of overtaxed linen with overtaxed thread for underpaid wages. The economists who are not satisfied to take as much as they need of the earnings of the people, but insist upon taking one hundred million dollars more than they can use, are to be called to a reckoning."

This country would be vastly better off if Wall street was cleansed of the financial blood-suckers who infest it. The republican party has made it possible for such firms as Grant & Ward and hundreds of others similar to this, which have gone down in the late crash, to exist and to draw large sums from the people and from the country every year and then, only because of extraordinary hazardous ventures, are caught and compelled to succumb. Fate banks are raided by the police of different cities and bucket shops are looked upon with disfavor, but these institutions, which are so much greater in their speculations and in their losses and gains than no comparison between them can be made, are allowed to flourish un molested and are even aided by the government. Whenever a crash is apprehended the secretary of the treasury rushes to the rescue, and with the government's treasury tries to uphold these very places where stocks are industriously watered, where fictitious values are placed upon all securities and where more men are ruined in a single day than in all other places in the country combined.

The Water Supply.

To the Editor of THE SENTINEL:

Mr. J. L. Williams is carrying the newspapers again on the water works question. He fails, it seems to me, to be consistent.

In a letter to the common council on water supply published in pamphlet form in 1875, Mr. Williams said, on page 9: "The city should own or control the canal feeder, or have a satisfactory arrangement with the trustees or whoever may own the work," and again, on the same page, "The pool of the feeder dam, some ten miles long, four to ten feet deep, would also form an important settling reservoir."

Mr. Williams changed his mind as to the propriety of the city "purchasing the feeder canal or having a satisfactory arrangement with the owners," on the day that he was left out of the party of purchasers of the canal, at Terre Haute. He now thinks that because Indianapolis refused to use water from the canal, for supply after it had passed through two miles or more, of the thickly populated part of that city, that the people of Fort Wayne ought not to take water from the feeder canal which does not come into the city limits.

His latest objection is that the city should not purchase the canal because the dam is built, he says, "on a sandy foundation and may go out," as though the foundation is not now the same as when he wanted to purchase it. The dam itself, he admits, was built fifty years ago, and is there yet. The guard-bank on the south side, after twenty-three years, having no one to look after it, washed out and it took him four weeks to repair it. Even then this break was caused by cutting into the bank to make a mill-race. Had this not been done, there would have been 500 feet of solid earth to resist the pressure and it would not have given away. How long it would have taken a live, active man to make the repairs, or whether if a man had been at the dam with reasonable frequency to examine it, it would have broken at all, he does not say. Twenty-one years afterwards the north bank gave away and Mr. Williams seeks to create the impression that it took more than one year to repair it. He knows better. He knows, as well as everyone else who knows anything about it, that the delay was caused by a controversy as to who should repair it—whether the state or the purchasers at the Terre Haute sale. Mr. Williams cannot plead ignorance on the subject. His course is unworthy of him or any frank, candid man, in this as in so many other statements he has made about this matter. Finally, when the dispute was settled as to who should repair, Mr. Williams turned the work over to Mr. Simons, who repaired the breach, in four weeks, and could have done it in a week less time had there been special necessity for it, and for seven years it has remained and is now a better and stronger dam than it was in 1858, when it was built.

Mr. Williams' memory must be well nigh destroyed or he would not forget what he said and wrote as late as 1875, or suppose that others would forget.

"Oh, I do feel so nice!" said a young girl of nineteen years. "I don't feel as if I had a headache or stomachache, or anything." And yet headaches, backaches, stomach aches and many other aches, swellings, sores, etc., troubled her before she took Dr. Guyot's Yellow Dock and Sarsaparilla. This remedy restored her to perfect health, as is indicated by her clear complexion, smooth skin and bright eyes. It will relieve all ailments peculiar to female life.

William Edwards won the six days' walking match at Omaha, concluding with Saturday night. His competitor was Frank H. Hart, of Boston. The winner made 426 miles and 5 laps, and Hart 416 miles and 10 laps. Stakes \$1,000.

E. D. Palmer of Albany, one of the greatest of American sculptors writes us: "For thirty-nine years Pond's Extract has grown steadily in favor with the people, while hundreds of so called remedies have risen, fallen and gone out of sight, 'up like a rocket and down like the stick.' Pond's Extract is the most perfect preparation of the shrub; a perfection attainable only by long experience and the labor of the most scientific chemists. Do not be deluded in this matter; it is of great importance to yourselves. Always ask for and see that you get Pond's Extract."

Thomas J. Cronsbie, a New York lumber dealer, made assignment Saturday for \$16,000.

THE BUTLER TRIAL.

The Experts From Columbus, Cincinnati, Toledo and Indianapolis to Testify as to the Murderer's Insanity--
The Standing of the Case Now.

For twelve long weary days, and a less number (by one) of nights, the Whitley circuit court has been engaged in the trial of Charles W. Butler. For nearly ten days of this time a constant stream of testimony has been pouring into the ears of the twelve jurymen in the box, and for aught we know, there will be no abatement of the stream for another ten days. Even should the taking of testimony be concluded by Saturday night, the arguments of the distinguished barristers in the case will occupy a week's time, so that, in reality, the trial is only half over. However, there may come a turn in the proceedings that will bring them to an end sooner than above indicated. Five or six experts are now at Columbia City from Columbus, Cincinnati, Indianapolis and Toledo to testify as to Butler's insanity. But the Columbia City Daily Post says the insanity plea is one that covers so much scope and admits of so much research and investigation that it takes time, and plenty of it, to hear a case, especially when an attempt is made not only to prove the prisoner insane, but also ten of his blood relations. Courts, to be sure, are expensive, but the majesty of the law must not be trampled in the dust nor justice trampled under foot. If Charles W. Butler is responsible for the death of Abbie Butler, the law prescribes what his punishment shall be. If he is not responsible, there is a law to protect him, and a law that provides for him. It is to ascertain the condition of his mind at the time the deed was committed that so much time is required, and to do this conclusively, it is essential to go back over his entire life, or at least back to the time the defendant was struck on the head by a policeman and had his skull fractured. This much devolves upon the defense; and it devolves upon the prosecution to prove the prisoner a man of sound mind and wholly responsible for his actions and for the crime with which he is charged. Then, it is not to be wondered at that so long a time is required for two sets of men to prove conclusively and to their own entire satisfaction, that the prisoner is both sane and insane; responsible and irresponsible; a murderer and an innocent man. This is about the only conclusion at which either a reader or hearer of the testimony can arrive, at the present stage of the "game." What the future has in store remains to be seen.

JOE JUGGLED.

The Stillwater Club Hop Onto Joe Brown and Pound the Leather Hard--
Other League Games.

The Fort Wayne and Stillwater clubs played their second championship game yesterday. The friends of the home team expected a walk away and expressed great sympathy for the Minnesota club. It was unnecessary, for the visitors put their colored pitcher into the box and except in the eighth inning our boys couldn't touch his balls. Joe Brown said he was sick and McLaughlin, the second base man, relieved him one inning. Brown again returned to the box and finished the game. This is the first league game the visitors have won and it is a little humiliating that Fort Wayne should be the victim.

The following score is official from Louis Schroeder:

Hynes' head was crushed, killing him instantly, and Jones received severe bruises and internal injuries. He was removed to No. 4326 Emerald avenue, where both gentlemen boarded. The buggy was

The "Little Turtle" club excursion to Rome City occurs Thursday, May 29. All wishing to spend a most enjoyable day should go with this excursion. Tickets for the round trip only \$1.

Disappointment in matters of pleasure is hard to be borne, in matters affecting health it becomes cruel. Dr. Bull's Cough Syrup never disappoints those who use it for obstinate coughs, colds, irritation of throat and lungs, etc.

Charles Chovey has sued Chas. More for \$180 on note.

Many of the hitters and quack nostrums of the day are also advertised for consumption on the plan that the only thing that the stuff wont cure is the avaricious, ignoble grief of the proprietor. Don't be deceived. The best remedy for strengthening the lungs, soothing all irritation, and stopping the cough, is Dr. Wistar's Balsam of wild cherry. It has cured many cases where physicians had given up hope.

In the fund for maintaining and managing the Fort Wayne schools, the board of school trustees have about \$30,000. In a short time the state will pay them about \$35,000, making a total in the fund of \$115,000. Most of this money lays idle in vaults and Councilman Mohr will strive to induce the school trustees to refrain from making another 5 per cent levy to swell the fund, as they now do. The levy will be contested in the council.

Words are at times a feeble medium of expressing gratitude, and Rev. J. E. Reed found them so. He writes from Los Angeles, Cal.: "Words can't tell how glad I am that I found Athlephoros. I took one bottle according to directions, very near, but before I had used it all, the pain was gone from my face and no pain has returned since. It did make a ringing in my head sure enough. The discoverer of this remedy for neuralgia will long be remembered by one I know of, with whom I am closely connected."

The "Little Turtle" club excursion to Rome City, Thursday, May 29, will be one of the largest and most enjoyable of the season.

To the Editor of THE SENTINEL:
As all eyes are centered on Wall street with its damnable speculations, and as the ruin of business in this country is only procrastinated, I would respectfully suggest, in order to hasten matters, that the republicans nominate for president, Ferdinand Ward; for vice president, Freddie Grant, with something like this for an issue: Revenue for Grants only. "306."

Dr. W. D. Wright, Cincinnati, O., sends the subjoined professional endorsement: "I have prescribed Dr. William Hall's Bileam for the lungs in a great number of cases and always with success. (One case in particular was given up by several physicians who had been called in for consultation with myself. The patient had all the symptoms of confirmed consumption—cold night sweats, hectic fever, harassed coughs, etc. He commenced immediately to get better and was soon restored to his usual health. I found Dr. Wm. Hall's Bileam for the lungs the most valuable expectorant for breaking up distressing coughs and colds."
